SUMMARY

Cybersecurity graduate (3.97/4.00 GPA) with five industry-recognized certifications spanning AWS, Microsoft, and CompTIA. Builds on 200+ hours of hands-on SOC, cloud security, and blue-team lab work to deliver practical skill in threat detection, incident response, SIEM analysis, and cloud security engineering. Known for fast learning, disciplined documentation, and a track record of academic excellence.

CERTIFICATIONS

- AWS Certified Security – Specialty (SCS-C03)
- Microsoft Certified: Security Operations Analyst Associate (SC-200)
- AWS Certified Solutions Architect – Associate (SAA-C03)
- CompTIA Cybersecurity Analyst (CySA+)
- CompTIA Security+

TECHNICAL SKILLS

Security: Security Operations (SOC), Incident Response, Threat Detection, Threat Hunting, Vulnerability Management, SIEM, EDR

Cloud: AWS, IAM, EC2, VPC, S3, CloudTrail, GuardDuty, Security Hub

Networking: TCP/IP, DNS, DHCP, VPN, Firewalls, Network Security

Tools: Microsoft Sentinel, Wireshark, Nmap, Burp Suite, Git, GitHub

Programming: Python, PowerShell, SQL, Bash

EDUCATION

Bachelor of Science in Cybersecurity — Florida International University

Expected July 2026

Miami, FL | GPA: 3.97/4.00 | Undergraduate Certificate: Ethics, Big Data & Artificial Intelligence

EXPERIENCE

Security Operations Assistant — Al-Sarraj Al-Munir Real Estate Institution

Jul 2019 – Aug 2021

Riyadh, Saudi Arabia

- Executed daily security operations across a large estate environment, enforcing safety protocols and maintaining full regulatory compliance.
- Monitored multi-camera surveillance systems and coordinated routine patrol operations, strengthening the property's physical security posture.
- Investigated, documented, and escalated security incidents, improving reporting accuracy and accelerating resolution timelines.

PROJECTS

Cybersecurity Portfolio Website *(in active development)*

omaralali966.github.io

- Designed and built a personal portfolio site showcasing certifications, technical projects, and hands-on cybersecurity labs.
- Deployed via GitHub Pages with continuous updates reflecting new skills, projects, and achievements.

TECHNICAL TRAINING

200+ hours of hands-on, lab-based training

- TryHackMe: SOC operations, cloud security, Active Directory, web application security, and incident response labs.
- Hack The Box: Blue-team defense, threat hunting, Active Directory exploitation, and Windows/Linux penetration testing labs.

HONORS & AWARDS

- Member, Phi Kappa Phi Honor Society (Chapter #206) — Florida International University; recognizes academic distinction among the top 7% of students.
